Pastors learning about Saving and Entrepreneurship

We transitioned from providing direct small loans—which were sometimes mismanaged—to establishing local church-based savings groups. Individuals seeking business loans are now required to join these groups at the church level. To strengthen this initiative, we have provided comprehensive training on savings group management and biblical principles for business. So far, 11 savings groups have been established.

We are pleased to report the successful growth of these groups, which enables us to provide more targeted support.

This course is A Simple, Proven Process teaching a step-by-step method for observation, interpretation, and application.

More than 50 attendees weekly and more still benefiting from the recorded course available on our youtube channel.
